

Matias Rodriguez Frontend Engineer | Product-Oriented | UX/UI Location: Argentina (Remote) Email: rodriguez.matias.g@gmail.com LinkedIn: <https://www.linkedin.com/in/matias-g-rodriguez/> Portfolio: <https://portfolio-matias-g-rodriguez.vercel.app/> GitHub: <https://github.com/Matias-Rodriguez-UX>

SUMMARY Product-oriented Frontend Engineer with 3+ years of experience building scalable web applications in SaaS and cybersecurity environments. Strong combination of frontend engineering, UX/UI design, and product thinking. Proven ability to translate business requirements into intuitive user interfaces and collaborate with cross-functional teams to deliver high-impact features.

SKILLS Frontend: React, Next.js, JavaScript, TypeScript, Tailwind CSS, Material UI, Bootstrap Backend (basic): Node.js, Express, PostgreSQL, MongoDB Tools: Git, Jira, Confluence, Slack UX/UI: Figma, Adobe XD Design: Photoshop, Illustrator, CorelDRAW Other: Responsive Design, Accessibility (a11y), Design Systems, Agile (Scrum)

PROFESSIONAL EXPERIENCE

Frontend Engineer & UX/UI Designer Metabase Q (Cybersecurity SaaS) – Remote Aug 2023 – Present

- Own end-to-end frontend development of product features from UX definition to implementation
- Collaborate with product managers and engineers to define requirements, user flows, and technical constraints
- Design and maintain scalable UI components and design systems using Figma
- Develop responsive and high-performance interfaces using React, Tailwind CSS, and Material UI
- Improve usability and accessibility across multiple modules
- Participate in product discussions, contributing to feature prioritization and UX improvements
- Reduce friction between design and development by bridging both disciplines

Frontend Developer (Freelance) TMS Ingeniería – Argentina Apr 2023 – May 2023

- Designed and developed a corporate platform for an engineering consultancy
- Built responsive user interfaces using React, Redux, and Material UI
- Implemented interactive components and improved navigation experience

Full Stack Teaching Assistant Henry Bootcamp – Argentina Feb 2023 – Jun 2023

- Mentored students in full stack development (JavaScript, React, Node.js)
- Led group problem-solving sessions and pair programming
- Supported students in debugging and best practices

Technical Teacher EEST N°1 – Argentina 2015 – Present

- Teach programming, logic, and technical subjects in secondary education
- Design educational materials and hands-on workshops
- Promote problem-solving and analytical thinking

PROJECTS

StreetArt Wine Club (Full Stack Project)

- Developed a web application with authentication, filtering, reviews, and user management

- Frontend: React, Redux, Bootstrap
- Backend: Node.js, Express
- Database: PostgreSQL (Sequelize)

EDUCATION

Full Stack Web Developer – Henry Bootcamp (700 hours) Industrial Designer – Universidad Nacional de La Plata (UNLP) Technical Degree in Informatics – EEST N°3
